A NOTICE OF PERMIT must be kept on the premises, publicly visible, throughout the progress of work.

Instructions to Applicant A building permit is required for the construction, renovation, alteration, repair, relocation, demolition, use, and occupancy of any building, structure, or portion thereof. A building permit is also required for the installation, replacement, or modification of electrical devices, heating equipment, cooling equipment, or wood burning devices. Building permit requirements (including exemptions) are identified in 19 NYCRR §1202.3. An operating permit is required prior to conducting certain processes or activities, or for operating certain types of buildings, structures, or facilities. Operating permit requirements are identified in 19 NYCRR §1202.8.

This Project may involve work requiring approval of various outside agencies prior to the issuance of a **PERMIT**.
